JASON BURNS

405-435-0808 | neuresthetics@gmail.com | github.com/neuresthetics

OVERVIEW

Independent researcher of behavioral applications for brain network theory. This started with childhood curiosity, evolved into alleviation from suffering through young adulthood, and continues today as service. Greenhorn software developer. Child rights activist and cognitive libertarian.

EXPERIENCE & EDUCATION

2019 – Present: writing, labor in trades

2018 – 19: Code Fellows: Python, JavaScript, C#. Web, DS&A

2014 – 16: Seattle Central College: addiction science

2010 – 14: Focus on neuropsych while in the Army Engineers

2007 – 10: Hands on study: entactogens & entheogens

2004 – 07: John F. Kennedy Memorial High School, Burien

Grade School Science Fair: Regions of The Brain

WORK & RESEARCH

NEURESTHETICS LLC

SOLE PROPRIETOR 2017-PRESENT

R&D of behaviorally applied brain network theory: general intelligence

Risk assessments and personal demonstrations of methodology

Proposal of new bioelectric psychiatric lithium compound hypothesis

https://github.com/neuresthetics/papers

PROJECT

GRAPHTACULAR

WRITTEN IN C#

Adjacency matrix style generative data structure

Unit tested, transcribed for visual display

github.com/neuresthetics/graphtacular

SERVICE

Army Engineer Warrior Leader Course Honor Graduate
